About Me

I am passionate about bioinformatics and academic research, I would like to continue my studies by following the Master in Bioinformatics at the ULB. I am really motivated by learning more about this field of study.

Problem solving

Working Experience

currently

Tutor in university R courses

UCLouvain

Assisting the Professor during the courses

2019

Contrat Rivière Dyle-Gette

SPW

Control of aquatic invasive species

Education

2020 –

Bachelor in Biology

UCLouvain

Including informatics courses

2014 – 2020

Secondary School

Saint Jean-Baptiste (Wavre)

Science and Math options

2008 – 2014

Primary School

Ecole du centre de Rixensart

Jeunes et Nature

What is it ?

A non-profit organisation that organize activities such as weekend or holliday camps to raise awareness for conservation among young people.

The Atlas of Orthoptera

Jeunes et Nature is organising a count of orthoptera in Famennes. I am part of this project, contributing on the field, writing and doing data analysis in R.

Coordination

I have organised activities, coordinating a team of about ten animators.
